

Award posters

A display area will be set aside at the conference for Award entries.

One poster is required with each entry for all award categories.

Award nominees should bring the poster to the conference in its completed version ready to be pinned up. Velcro and other materials will be available.

Award nominees are also responsible for taking their posters down at the end of the conference if they wish to keep them.

The posters must be size A0 (1189mm x 840mm).

The following information must be displayed on each poster:

- Award Category
- Nominee name
- Nominee's organisation (for all awards except Volunteer of the Year Award)
- Project name (for Project of the Year award).

The rest of the poster format can be as desired. It should provide conference delegates a good overview of the application, photos or visually interesting material is recommended.

Note that posters do not form part of the criteria for selection of Awards winners. Posters give conference delegates an appreciation of the entries prior to the Awards ceremony, and are an opportunity for entrants to get exposure within the New Zealand project management community.
